How to Handle Playing of Cards and Abilities

Cards and actions can be used by any player only on coloured arrows and boxes. **Orange** arrows and boxes are outside combat and **blue** ones are during combat. Use the *Can You Do That Action Now?* chart on Page 2 to see a list of what you can do when. The exception is cards and actions that specifically state they *cancel* an event or are used *before*, *when* or *after* an event occurs, which can be played when specified. If you die, you also go to the Death rules immediately.
